A Breakthrough in Performance and Results

The Landmark Forum For Executives challenges you to rethink **what is possible**.

It gives you an edge – an advantage in creating and meeting the challenges of tomorrow for you, your organization, your family and your world.

Accelerated Learning Process from the world's most highly acclaimed Methodology

Collaborative and dynamic, the **Landmark Forum For Executives** is not a lecture or a motivational technique.

It's a powerful, accelerated learning experience – a guided dialogue between the instructor and you. Standard training methods often leave you with concepts you have to remember and figure out how to apply later.

Landmark's method leaves you applying what you have learnt naturally, without effort. In this three-day program, you get breakthroughs by direct personal discovery.

At the completion of the **Landmark Forum For Executives** you will have the access to:

- Creating ongoing breakthroughs in all areas of life
- Creating the quantum leap in business
- Creating from the Future
- Creating leaders who can recreate your intentions
- Empowering your team to align and own the vision of the company as their own
